Church Process (IDC Process)

The IDC Process is an 18-24 month process designed to help church leaders and their congregation discover and fulfill the mission of disciplemaking that God has given the church. Based on the foundation of prayer, teaming and assessment, the process focuses on helping local churches in five major areas:

- Mission Clarification, including core values and vision, to guide and set the internal and operating direction of the church
- Maturity Strategy, implementing an intentional spiritual growth process with a church-developed definition and profile of a disciple
- Outreach Strategy, increasing fruitfulness in outreach to those without Christ through a comprehensive intentional strategy
- Leadership Strategy, growing leaders who help accomplish the mission of the church
- Relational Dynamics, developing a fruitful and integrated small group ministry and a life-to-life ministry approach in the church
