

VISION

We want to advance the gospel of Jesus and His kingdom into the nations through spiritual generations of laborers living and discipling among the lost in [the digital space](#).

MISSION

The mission of NavTech is to train geeks into disciple-makers.

4G Core Values (1 John 2:15-16)

- God - Loving God and desiring to place Jesus in the center of our lives
- Grow - Desiring to grow continually in faith, in technical skills and in life
- Give - Willing to sacrifice for God and others in ministry exhibiting love and grace
- Gadgets - Having a love for technology and a keen interest to use it for God

WHO WE ARE

We are a community of geeky disciple-makers! We are passionate software developers, user experience designers, computer engineers and technopreneurs who use our skills to make disciples of Jesus and disciple-makers for the glory of God.

WHAT WE DO

We spend time in small group bible study and personal mentoring to help each geek know Jesus in such a way that they can help others do the same. We harness technology for the sake of the gospel, connecting with technology enthusiasts through social networks and various technology related avenues. We also take time to explore and develop various technologies that will multiply the efforts of disciple-makers.

WHY DO WE EXIST

- [God](#) led us in a very significant way to start this ministry, where circumstances and past experiences converged in a divine way to orchestrate this new initiative.
- [Potential](#) of using technology for the gospel is obvious. With the advent of social networks and a ubiquitous technology landscape, there are multitudes of opportunities for people trained in technology to harness it for the Kingdom of God.
- [Strategic](#) for the wider Navigator work. For missions (online or otherwise) as well as a changing generation where technology is a norm. Disciple-making must evolve accordingly

to stay relevant. It is strategic to first focus on tech specialists and then to eventually reach broadly through technology.

FAQ

TRAINING GEEKS INTO DISCIPLE-MAKERS

What are we trying to do through NavTech?

We want to advance the gospel of Jesus and His kingdom into the nations through spiritual generations of laborers living and discipling among the lost in the digital space.

- Disciple spiritual generations of technology minded labourers
- Harnessing technology to augment the work of disciple-making
- Exploit technology to advance the gospel into the nations

What do we mean by technology minded?

A technology minded labourer would fit into one of the following categories.

- Someone who works/studies in a tech related field (Programmer, Computer Engineer, UX/UI, digital marketer, etc.)
- Someone who wants to use tech for disciple-making

Why would a geek want to join NavTech?

- Seeing how technology and faith can come together
- Having a personal mentor and growing spiritually
- Being involved in a community of Christian geeks
- Impacting the world through skillsets

Who might be interested?

- A Christian geek who works in a tech industry
- Geek who wants to learn how to survive in the tech industry
- A geek who might not have a like-minded community in church
- A geek who does not yet have avenues to serve through his skillsets
- Someone who wants to learn how to use tech for disciple-making
